AREAS OF SPECIALIZATION:

I am excellent with chronic and acute pain and/or injury situations. As well as providing relaxation, rejuvenation and preventative care. I offer a well-rounded base of modalities for the over-all wellness of each client.

I am trained to work through my clients clothes or disrobed. I am highly effective with clients in the sideline position, for those clients with special needs that cannot lay prone or supine. Eldercare massage or pregnancy would be a good example.

I find out what my clients needs are prior to each session and from that place draw from my store of modalities to provide an outstanding and effective treatment.

Currently I offer my services from our professional office in Lake Montezuma, AZ and I also provide Home visits (for those that request it) through out the entire Sedona/Verde Valley.

EXPERIENCE:

Self-employed, The Heart of Healing, Sedona **2000-current**

I am an Arizona State licensed Massage Therapist. Utilizing all above listed therapeutic modalities, in a highly successful treatment model.

Self-employed, Co- facilitator, Seminars, Sedona/California **1997-1999**

I was a trained co-facilitator of personal growth seminars in California; public speaking and peacemaking skills were used.

Manager, Artisan's Galleria, Sedona **1995-1998**

This was a motivated, highly energetic, up beat position. I was responsible for all aspects of managing this business, from hiring to firing, including some computer work and coordinating public events. I also had an interactive role as concierge with the out of town visitors. I assisted customers in their stay, sightseeing and tours. This position required attention to detail with good phone skills and personal relation skills with the general public and the represented artists.
